PROFESSIONAL SUMMARY

Software Engineer with **4+ years of experience** designing, building, and maintaining scalable, secure, and high-performance web applications. Specializes in frontend engineering with **React, Next.js, and Vue/Nuxt**, complemented by full-stack capabilities across **Node.js, REST APIs, and relational and non-relational databases**. Proven ability to deliver production-grade systems across diverse business domains, integrate third-party APIs, modernize legacy codebases, and uphold engineering best practices within agile teams. Passionate about solving real-world problems, delivering impactful digital products.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, Nuxt.js, Astro.js, TailwindCSS, Shadcn UI
State Management: Redux, Zustand, TanStack Query, Pinia, Vuex
Backend & Database: Node.js, Express.js, REST APIs, MongoDB (Mongoose), PostgreSQL (Prisma), Strapi
Languages & Tools: JavaScript (ES6+), TypeScript, Git, GitHub, Vite, ESLint, Prettier
Practices: Agile / Scrum, Code Review, Responsive Design, SEO Optimization, SSR, i18n

PROFESSIONAL EXPERIENCE

Software Engineer (L1) — Devxhub

Mar 2022 – Feb 2026

- Designed, developed, and maintained production-level web applications using **Nuxt.js, Next.js, and Astro.js**, serving real users across multiple business domains.
- Built responsive, accessible, and SEO-optimized user interfaces with measurable focus on Core Web Vitals and rendering performance.
- Collaborated closely with backend engineers to integrate RESTful APIs, translating business requirements into robust, user-facing features.
- Modernized legacy codebases by refactoring component architecture, improving maintainability, and eliminating critical technical debt.
- Championed code quality through structured peer reviews, enforcing consistent standards and best practices across the team.
- Delivered full-stack features end-to-end across diverse client products spanning e-commerce, education, healthcare, and ERP sectors.

PROJECTS

Social Media Archiving Platform | Nuxt.js, TailwindCSS, Pinia, Vuex, ApexChart

- Social media data archiving platform enabling secure backup of user data across **Facebook, Instagram, LinkedIn, Twitter, Gmail** and more.
- Built threat-detection alert system to proactively notify users of suspicious or potentially harmful account activity.

E Learning Platform | Nuxt.js, TailwindCSS, Pinia, i18n

- E-learning platform for mobile device servicing courses, providing structured curriculum, flash tools, and downloadable resources.
- Implemented **single-device login enforcement** and an integrated secure payment system, modeled after Udemy's course delivery UX.

WiderML 🌀 | Next.js, Konva, TanStack Query, Axios

- AI-powered platform that auto-generates websites, marketing content, and launch strategies to accelerate business go-to-market.

Now Health — International Health Insurance 🌀 | Next.js, i18n, TailwindCSS, Shadcn UI, Strapi

- Multilingual global platform delivering localized health insurance services including consultancy, technology solutions, and third-party administration (TPA).

Travel Buddy 🌀 | Next.js, TypeScript, Express.js, PostgreSQL, Prisma

- Full-stack trip planning app with **JWT authentication**, role-based access control, protected routes, and server-side rendering (SSR).

EDUCATION

B.Sc. in Computer Science & Engineering

Begum Rokeya University, Rangpur

2021

LANGUAGES

Bangla: Native | **English:** Professional Working Proficiency
